**Notes**

maps grant-aided in recent years have been negatively weighted in 2009  
 this grant scheme favours of championship areas. A lot of previous years' grants were given to schools and parks  
 In recognition of its international nature, Shamrock 2009 is being treated as if it were a championship event  
 MNAV grants are being increased as the areas are to be used as a 2009 community games demonstration sport  
 Grants for SligO are positively weighted to recognise the extra financial assistance that a new club requires to build a map-stock
