THE EVENT IN MARLAY PARK (DEC. 17) WENT OFF WITHOUT A HITCH, AND MANY NEW FACES WERE SEEN - SOME MAY WELL INVESTIGATE ORIENTEERING FURTHER. IT WOULD MAKE AN EXCELLENT PLACE FOR A NIGHT EVENT, EXCEPT THAT IT CLOSES UP AT DUSK. HOWEVER, A DISCREET LADDER OVER THE WALL ...

TRAINING SESSIONS CONTINUE AT BELFIELD HOUSE, WEDNESDAY 18.00 HOURS, ALTHOUGH IT IS RUMOURED THAT THE TRAINING OFFICER HIMSELF HAS YET TO BE SEEN AT ONE. DON'T FORGET TO COME OUT ON FEB. 5TH AND SUPPORT YOUR CLUB- GRADE 1 EVENT - NEW MAP - AT KILMURRAY, NEWTOWNMOUNTKENNEDY. COME ALONG AND BRING THOSE INACTIVE FRIENDS AND RELATIVES, AND MAKE THE DAY A SUCCESS. IF ITS CLEAR YOU CAN WEE WALES FROM THE TOP.

MACTIRE MESSAGE

Immense relief spread over the Mactire Pack on discovering the hidden talent in our midst in the person of MUIRIS DE BUITLEAR. Given a sheet of permatrace and a few pens, he produced a contoured masterpiece of the Phoenix Park which will be available in the Spring for all Phoenix Park lovers. Deer oh deer !
Flushed with success, the mapping team will go into action shortly on the Kilbride map which Muiris is preparing.

A limited number of Old Kilmurry maps and maps of Cruagh Forest with fixed courses will shortly be available. It is hoped that these fixed courses will be of great value in training our 'up and coming' orienteers.

Cruagh maps will be available from,
Robert Garrett, 14 Brookwood Road, Artane, Dublin 5 - Tel. 312731 and Monica Turley,4 Old Orchard,Butterfield Ave.,Rathfarnham,D.14 - Tel.907068.

Cruagh can easily be reached by number 47 Bus to Tibradden and Rockbrook from Hawkins Street.

Kilmurry maps will be available from Monica Turley.

MACTIRE - CHRISTMAS NOVELTY EVENT

On 14th December, MACTIRE, in keeping with its policy of innovation, organised a Night Event in Sandymount. Club bosses considered that, apart from its obvious literary and cultural associations, (a control was placed within sight of the Butler residence), this was an ideal area to display their skills in course setting.

Where else could a short course present the keen night orienteer with such a perfect blend of pleasant suburban jogging, cross-country running, and maritime exploration?? It was felt that these natural assets, combined with the use of a map of unusual scale, and the inclusion in the course of a deliberate error, would give a night to remember. And so it proved. From the outset competition was keen and soon feedback from the check points reported an intense and exciting contest. Some competitors, bewildered by the new format, found the going rough, and several were defeated by the final cross-country section through the mogul fields.

Nevertheless, experience and fitness won the night as Pat Flanagan (3ROC) powered his way to victory, with Clubmates, Mike Nowlan (signs of a comeback here??) and Ted McGrath sharing second place. Eileen Loughman (GEN) won the short event with Bridget Flanagan in second place.

Finally, our thanks to Eddie Neiland and The Railway Union Club for changing and bar facilities.

Des Doyle.

Olympic Recognition

Perhaps the most controversial news emerge from the Congress was that th International Olympic Committee ha granted recognition to orienteering. A aim of the IOF has been to seek recogn tion. However this happened more quick than expected. Congress was quite cle that we have taken the matter far enoug Until such time as the IOC reorganises the staging of the Olympics the IOF is not a all keen on any further moves. Som member countries are totally opposed t *any* further involvement.

Gain recognition certainly does not mean that we would see any orienteering at the Games. An organising city or nation would have to make the next move, and also we would need many more countries active in our sport. I feel that we have the best outcome for the moment. Orienteering is an Olympic sport; that goes down well with interested third parties and gives it a new status.

SETANTA NEWS

WOT - NO CLOCK!

THOSE OF YOU WHO MANAGED TO BRAVE THE PIERCING WINDS AT OUR TRAINING EVENT IN BALLYWARD, LAST DECEMBER, WILL REMEMBER THAT, FOR ONCE, THERE WAS NO CLOCK AT THE START OF THE EVENT. WE FORGOT IT! THIS MASTERLY STROKE OF ABSENT-MINDEDNESS WAS THE MAKING OF THE EVENT. ORIENTEERS, NOT QUITE SURE OF HOW TO COPE WITH THE SITUATION COULD BE SEEN MUTTERING "5..4..3." ETC. BEFORE DASHING OFF INTO THE WOOD. THEN CAME THE LONG WAIT. I BEGAN TO WONDER IF THE DRAGON, WHICH HAD FOUND HIS WAY ONTO THE MAP, HAD MATERIALISED AND DEVOURED THEM. THEN, AT LAST, THEY BEGAN TO REAPPEAR, HAVING FOUND THEIR WAY THROUGH CORRIDORS AND BY MEMORY, ALONG LINES, BY COMPASS AND BY PACING, AND BY DEAD RECKONING IF THEY FELT LIKE IT. JUST FOR ONCE EVERYONE HAD FORGOTTEN THE CLOCK. ORIENTEERS HAD SAID "AFTER YOU" AND HAD WAITED TILL SECTIONS OF THE COURSE WERE CLEAR OF PEOPLE; SOME HAD EVEN REPEATED SECTIONS TWICE. THE DISCUSSION AFTERWARDS WAS NOT ABOUT SECONDS LOST, BUT WAS ABOUT THE CRAFT OF ORIENTEERING. QUITE BY ACCIDENT WE SEEMED TO HAVE GIVEN BACK, EVEN TO THE HARDY AND EXPERIENCED, THAT TASTE FOR THE CRAFT WHICH DREW US ALL TO THE SPORT IN THE FIRST PLACE.

IN MARCH WE HOPE TO RUN A SPECIAL, PRE-J.K. TRAINING EVENT DESIGNED TO DRAW OUT YOUR SKILLS SUCH AS PACING, CONTOURING, COMPASS AND DEAD RECKONING, BUT COME TO ENJOY IT, IT WON'T BE TOO STRENUOUS AND WE WILL TRY TO REMEMBER TO FORGET THE CLOCK.

BY THE WAY. WE HAVE ABOUT 120 OF THE BALLYWARD MAPS WITH CONTROL DESCRIPTIONS, AND MASTER MAPS IF ANY CLUB WOULD LIKE TO USE THESE FOR A TRAINING EVENT FOR THEIR MEMBERS.

GEN News

ANN McBRIDE, GEN'S NEW SECRETARY, WAS INVOLVED IN AN ACCIDENT IN DECEMBER, AND WILL BE IN HOSPITAL FOR SOME TIME TO COME. HERE'S HOPING SHE WILL BE FIT AND WELL SOON.

THE SECOND STREET EVENT WAS HELD ON JANUARY 11TH. THE NIGHT WAS COLD, THE COMPETITORS FEW, AND THE ORGANISERS FROZEN. IT WAS REPORTED RECENTLY THAT ONE COMPETITOR AT THE FIRST EVENT TRIED TO TAKE A STRAIGHT-LINE COURSE OVER THE CLIFFS AT DALKEY. THE NEXT NIGHT EVENT WILL BE MARCH 1ST. START TIMES 7.30 TO 8.00 P.M.

VIRGINIA DAVIS, ONE OF THE CLUB'S STUDENT MEMBERS WAS SUBSIDISED TO ATTEND THE ADVANCED ORIENTEERING COURSE IN TIGHLIN, AND FOUND IT VERY USEFUL. WE HOPE TO DO THIS FOR MORE JUNIOR MEMBERS THIS YEAR.

IT IS TO BE HOPED THAT ALL CLUB MEMBERS SAW THE T.V. REPORT, WHICH HIGHLIGHTED GEN ACHIEVEMENTS AT THE RELAYS IN NOVEMBER. (2ND PLACE IN MENS EVENT, 1ST IN THE WOMENS.) PAGET, EILEEN, ANDREA, ETC. WERE ALL SHOWN IN THIS EXCITING THREE-MINUTE DOCUMENTARY. LET'S TRY TO KEEP IT UP IN 1978.

Reflections on Alex I. Cographer.

Alan Mac An Earraigh

Put a dictionary in the hands of one untutored in its use and confusion reigns. Alex's admirable aim (note alliteration - (Ir. uaim = act of joining, sewing or rivetting together etc. etc.) of ending linguistic discrimination translating the French "Course d'Orientation" (did he look at an English-French dictionary) in Irish via English would not offer quite the difficulty he had to one well-versed in the usage of Irish and the usefulness of the lexicographical aids.

Here are the options:

1. Cúrsa rianaíochta: the second word is based on the Irish 'rian' = 'way', 'path' and means travelling, or tracing one's way to a destination.

2. Cúrsa méarachta/méaraíochta: based on the word 'méar' = 'finger' and means finding one's way. The disadvantage of this word is that it also means 'pawing one's way', 'fumbling' etc. Or is that really a disadvantage?

3. Cúrsa treodóireachta: based on 'treoir' = 'direction' or 'guidance' (preview of the new Irish-English Dictionary which has been on the point of being published for the last 10 years and is rumoured to be again almost certain to be on the market before Easter, and if not, after Easter, according to the Minister for Education (Ph. 717101)).

ALEX I. COGRAPHER

WE LEARN WITH SADNESS THAT OUR CORRESPONDENT, ALEX. I. COGRAPHER HAS TAKEN TO HIS BED FOLLOWING THE SCURRILOUS ONSLAUGHT LAUNCHED AGAINST HIM BY THE DASTARDLY ALAN MACANEARRAIGH. HOWEVER, BY VARIOUS MEANS WE HAVE DISCOVERED THAT HE WAS "SHOCKED, SADDENED AND DISMAYED" AT THE APPARENT LEVITY WITH WHICH THE SUBJECT OF HIS LIFE'S ENDEAVOURS HAS BEEN TREATED. HE MAINTAINS THAT HIS HEALTH MAY IMPROVE AFTER THE THAW, AND HE MAY VENTURE OUT AND ABOUT ONCE AGAIN, HIS LITTLE EYES BRIGHT, AND HIS BUSHY TAIL HELD HIGH WHILE HE SEARCHES FOR THE NUTS HE BURIED THE PREVIOUS AUTUMN. IN THE MEANTIME HE SUGGESTS THAT ALAN MACAN EARRAIGH PONDER UPON ANOTHER POSSIBILITY WHICH APPEARS TO HAVE ESCAPED HIS ATTENTION: OIRTHIR-RIANADÓIREACHT. SO THERE!

AGE CLASSES FOR 1978

AGES ARE TAKEN FOR THIS YEAR AT 31.12.1978, SO IF YOU ARE 21 IN OCTOBER, SAY, YOU ARE EFFECTIVELY 21 FOR THE ENTIRE YEAR FROM 1.1.'78 TO 31.12.'78.

AS A RULE COMPETITORS MAY COMPETE IN A CLASS ONE-HIGHER THAN THEIR AGE-CLASS, BUT MAY NOT COMPETE IN A LOWER AGE-CLASS.

M21 IS OPEN TO ALL MEN.

W19 IS OPEN TO ALL WOMEN.

FOR THOSE UNDER 13 IN 1978 (I.E. BORN AFTER 1965) - THESE MAY RUN IN M/W13 OR MAY DO THE WAYFARER COURSE. UNDER 13's SHOULD NOT COMPETE ALONE - GROUPS OR 2-3 ARE BETTER.

ON BEING NON COMPETITIVE

At Maulin in December I declared myself 'non competitive' for the race. This was because I had drawn the map for, and planned and organised the previous event there. It was a most frustrating experience, for I had a very good run, including my usual minor mistakes, which would have been good enough to win. Apart from the enjoyment of the event itself, and rare prizes and internationals, the only reward for orienteering is the prestige of winning an event. Winning is not easy, and indeed I have won only 11 events in 5½ years as an M21. There are two questions which need answering on this point, (a) Who decides who is to be non competitive ? , and (b) What criterion do they use ?

One person should not have the responsibility, and I suggest that the planner, organiser and controller should be in charge. Mapping an area certainly gives an unfair advantage - but when is this outweighed by time and the number of events held on the map? I should think that 5 or 6 events would be reasonable for anybody to get to know the area quite well and the mapper should be allowed to compete after this. If 2 or 3 people mapped the area, then perhaps 3 events should be allowed. If a lot of people were involved, then after the first event they should be given a chance. All this has one proviso - a person involved in mapping the area should not be allowed compete in a Grade 1 event on the map, without approval from the IOA executive.

Looking back at my own case, however, another problem arises. I only revised the map I drew - a case of a day spent looking at control sites and surveying map corrections. There had been 3 previous editions of the map and 7 competitive events had been held there, including one on my edition of the map.

Carrying this concept onwards, I see a possible solution to a constant problem - competitors complaints, whether about a control being misplaced, punch being stolen, orange not being served afterwards etc.

The 'race jury' of planner, organiser and controller could meet to consider complaints received, say, up to the Wednesday of the following week. These would be accompanied by a 50p deposit, which would be returned if the complaint was upheld.

It can be extremely annoying to look for a misplaced control, and then to find that the results are published with no comment as is often the case. The sport of orienteering is losing every time we ignore a mistake. Starting now, I propose that each club appoint 3 people as a race jury before an event and accept any complaints that might be made. Appeal is always open to the IOA executive - nearer, my God, to thee.

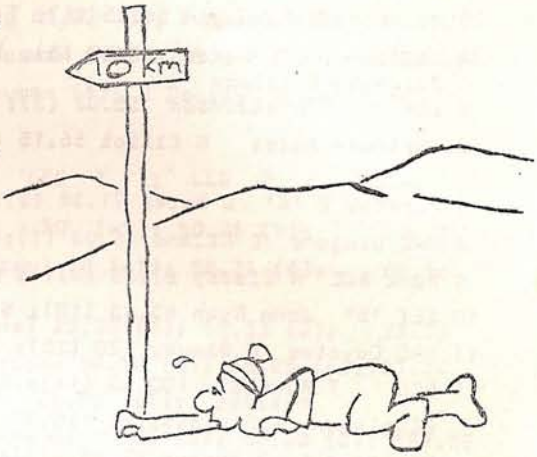
MARATHONS: A REVIEW

A survey of this fast-growing phenomenon by SIMON STEWART.



All the adventure sports are growing in Ireland and one expression of this is the tremendous expansion of mountain hill-walks organised by various clubs.

This year's walks were run at six locations

Name:	Organised by:	Participants:
Reeks	Laune & Killarney MC	250
Galtees	Tipp. AS Club	110
Maamturks	UCCMC	100
Mourne Wall	YHANI	2,000
Lug	Irish Ramblers Club	120
Mountain Marathon	Leinster Orienteers	40-50

In addition to these but not strictly in the same category An Oige organised its customary sponsored walk up Lugnaquilla, the Castlebar Ramblers organised their usual week of walking. Biggest of all - 40,000 made it up Croagh Patrick, though this must be classified as a penitential rather than a physical exercise!

In most cases the organisers have a checking system usually operated by radio to note the progress of each participant through each checkpoint. Usually standards are set in terms of equipment and in some cases participants are made to go in groups with experienced leaders. This was particularly in evidence this year at the Reeks where the good weather we've grown accustomed to at this event wasn't in evidence.

Each walk has its own particular qualities. The easiest is probably the Galtees which has fairly gradual climbing, little navigational problems and isn't too long (about 12 miles). The view over the plains which come right up to the base of the range is excellent on a good day.

The Magillicuddy Reeks must have the most magnificent scenery! The walk is along a knife edge arete for parts of the way with vast drops on either side. There's a little scrambling and a couple of unending ascents such as the final climb up Carantuohill. The walk is 12 miles long and has 5,000 feet of climbing. The crack at The Climbers Inn (Glencar) or Rossbeigh Strand where a lot of people camp is very good.

If you like bog-slogs there's the Lug Walk (33 miles and 7,500 feet climb) in Wicklow and organised by the Irish Ramblers Club. It's long and hard though not very steep and takes about 9 - 14 hours for walkers. The organisation was amazing; 14 checkpoints each with 3 organisers and a comprehensive food, transport and rescue set-up. In the Republic probably the Ramblers are the only club capable of doing it!

Also in the slog category is the Mourne Wall Walk. After recent T.V. publicity (a very mixed blessing for the organisers one would imagine) 2,000 people turned out. The walk is 22 miles long and has 10,000 feet of climb. There is zero navigation because you can walk beside the wall for most of the way. This channelling of participants has led to one big problem - the lack of loos or suitable cover as subtitutes. Mundane, but nasty.

Probably Ireland's most difficult walk is the Maamturks ridge walk. It's not all that long (14 miles) but very steep (up and down) there are no paths and navigation in mist is extremely difficult. The map has serious errors - for instance a complete coombe is ignored. In 1975 out of about 50 starters only 8 finished the whole walk to Leenane. In 1976 only 4 out of 60 finished! This year was much better, since the weather was clear and we could see some of the extraordinary features of the land missed before.

Necessary brevity prevents a full discussion of all the issues about organised walks but it should be mentioned that although they don't offer a comprehensive introduction to hill-walking, they do bring large numbers of people out to relatively interesting areas, are great fun and a unifying influence. Their commercial value hasn't been missed either, see efforts of Castlebar Ramblers. Hill-running was greatly in evidence this year with Christy Rice emerging as the top dog. He

Only Trojan work by alot of club members made this event possible. Eight of us took four hours on the Thursday before the event to premark and wrap the maps. Due to the irregular cutting of the map margin the register was slightly off on most maps, and about 130 had to be thrown out. This resulted in a net loss of £5 for the event. Hollywood obviously needs revision and probably should not have been used for the National Championships. The winning margins in all classes, however, were clear. The relay is the most difficult event to organise. and the next club to try should be warned to plan the actual running on the day very carefully. Our event, being run by only 3 people, was a bit chaotic at times.
