APPENDIX B – ANTI DOPING

The anti-doping rules of Orienteering Ireland are the Irish Anti-Doping Rules as published by the Sport Ireland as amended from time to time.

APPENDIX C – GOOD ENVIRONMENTAL PRACTICE

As orienteers, we appreciate that a healthy environment is critical to the success of our sport. We recognise that we have a duty to ensure that our activities do not have an adverse effect on the terrain in which they are held. OI expects that our clubs and event organisers acknowledge the individual nature of each area to be used.

The OI Environmental Policy outlines our procedures for minimising our impact on the environment.
